ThinkBS: Basic Sciences in Engineering Education Erasmus Plus Project, International Workshop: 25-26 March, 2021, Istanbul, Turkey

Dear Researchers,

The ThinkBS! project is a minor program in Mathematics for engineering students and/or graduates. The program aims to provide a strong background in Mathematics with the purpose of preparing engineers to either a post-graduate study in Mathematics or a career as a research engineer. In the light of the knowledge experienced during the project process and in the lead of new ideas, we are organizing an **online international** workshop, “**ThinkBS: Basic Sciences in Engineering Education**”, between 25 March -26 March 2021.

Participants may participate in the Workshop with verbal and poster presentations. Researchers who want to participate are required to send their abstracts to our e-mail address thinkbs@khas.edu.tr by 26 February.

All presentations will be recorded and shared with the participants after the workshop.

At the end of Workshop, all accepted abstracts will be published in the Workshop Abstract Book with **ISBN** number.

We kindly invite you to our workshop on **25-26 March 2021**.

Co-funded by the
Erasmus+ Programme
of the European Union
